This band is lauded as Iron Maiden meeting Pantera and I can see that. They have the energy, the heaviness, and yet a very modern edge as well. From start to finish they kick your ass. "Hide The Razor" is definitely a tune I love on this record. The band is energetic and has a punk ass attitude. This is definitely a band you need to look out for and I can only imagine how they are live. There's also a video on here for "Hide The Razor".
