

## **'Taylor Swift: American Beauty,' Unauthorized Biography(VLF/MVDvisual, HHH)**

This Dec. 6, 2011, DVD presents the story of country-pop cutie Taylor Swift, who is extremely fan-friendly and controls nearly all aspects of her blossoming multi-media career. Several fans are interviewed, facts from reliable sources are quoted, and vignettes featuring a barely look-alike Taylor and family are shown to illustrate her progression from high school outcast to star.

Rabid Taylor fans will want it; others won't be interested.
