ANDERSON BRUFORD WAKEMAN HOWE/An Evening Of Yes Plus (Voice Print) I am not a huge fan of the band, but I do respect them and I do like a bunch of their songs and on this double disc set I got a new appreciation for this band. The band rip through most of their best known tunes and they actually skip some of their best known tunes from the 80's, which was OK to me as I thought those tunes were overated. The band sound tight and Jon Anderson sounds good voice wise and this was cool that they stuck to mostly old stuff and they play the old tunes with conviction and they just sound amazing. If your a fan of the band and prefer the older stuff, this is a MUST get. 2 great discs of Yes music that will warm the heart of the classic metal fan.
