## MUSIC NEWS: Almost Yes Indeed at MVD!

The influential English progressive rock outfit **YES** are set to celebrate their 40th anniversary in 2008. Through many line-up changes and creative off-shoots there is always new YES material out there on the market, and, some of the best near YES can be found at MVD! For example, the classic *Anderson, Bruford, Wakeman, Howe - An Evening Of Yes Music Plus* has been released on DVD and CD. This performance was captured on the American leg of the 1989 world tour and finds the band performing not only material from the self titled album but also classic material from YES including *Starship Trooper*, *Close To The Edge* and also *And You And I*. Anderson, Bruford, Wakeman, Howe made up of four fifths of the classic YES lineup from the seventies. Put together by Jon Anderson, the band recorded one self titled album released in 1989, and then embarked on an extensive and hugely successful worldwide tour filmed here.

For fans of the caped-one MVD has the new-agey *Aspirant* trilogy from **Rick Wakeman**. *Aspirant Sunshadows* is the final part of the trilogy of albums that also includes the albums *Aspirant Sunrise*, and *Aspirant Sunset*. The albums were recorded in 1991 in the New Age style which was popular at that time. The albums were written and produced with relaxation in mind. All the albums in the trilogy have been unavailable for some time and have been re mastered for this release making them much anticipated by the large Rick Wakeman fan base.
