RECORDING INFORMATION

This is a document of a 1995 performance in New Jersey released previously on VHS and in 2008 released for the first time on DVD by MVDVideo.

The DVD includes promotional footage made to accompany Patricks debut solo album *The Story Of I*. The sound reproduction on the DVD has also been personally overseen by Patrick Moraz and the picture quality has been noticeably improved from the original VHS release.

COMMENTS & REVIEWS

Best known for his work with **Yes**, **Bruford** and **The Moody Blues**, **Patrick Moraz** also has a distinguished solo career, touching the Prog, Jazz and Classical genres with a high level of excellence.

I had the chance to catch **Patrick Moraz** live in Montréal in the late eighties, with **Bruford**, in their "Piano and Drums" tour, and I was quite impressed with his skill level. *Live In Princeton* mostly features **Moraz's** talents as a pianist, and he does shine. For sure, *Live In Princeton* is not for everyone. You have to be into this kind of flashy technical keyboard playing that **Wakeman**, **Emerson** and a few others are famous for. Also a love for the piano is required.

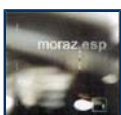

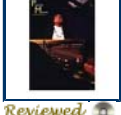

In conclusion, *Live In Princeton* will certainly not disappoint those into **Moraz's** music. The DVD is well filmed and recorded so you really get the chance to enjoy his playing.
