Occasionally I do feel nostalgic and *Live at the Roundhouse 1976* is one of these products that brings me back to my adolescent years.

By 1976, the Welsh band **MAN** had been a working unit for eight years. At this point the only founding member was Mickey Jones. He was joined by long time members drummer Terry Williams, guitarist Deke Leonard, keyboard player Phil Ryan and John McKenzie on bass. Deciding to split at the end of 1976 the band also decided to document the final days of the band in a film. This rarely seen film has now been released on DVD and is distributed by MVD. It features performances from the Roundhouse concert at the end of the tour, and interviews are also featured as a bonus.

Sure the concert on *Live at the Roundhouse 1976* is a product of it's era. Still it is well filmed and recorded and if you are a fan of this good old prog related hard rock, this DVD is sure to give hours of enjoyment.
