Flavor Flav

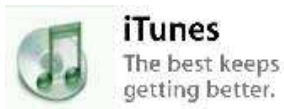

Live in Concert DVD

Review by Gary Hill

All the excesses in terms of his personal attire – and now the reality show season after season - make it easy to dismiss Flavor Flav as a caricature of a rapper. Certainly he brings a lot of that on himself. The truth of the matter is, though, watching this DVD shows that he has talent. It's quite a fun concert. Those who have problems with foul language, though, will want to steer clear. If you want to see how much fun a rap show can be, you should give this one a shot. The videography and sound are both good and it's a strong performance.
