Unfortunately, this was the epic show I had for. All Hail the Crown very good, but Malfunkshun was sorely lacking. hey so this CD came out and i really dig it. the end of it is meh (the cover of "Malfunkshun Monument Golden Words" is great) but i do agree some of the solos are over the top. the songs pretty well rock and you can't beat the all-time lyrics.

i recommend checking it out especially if you are a fan.
