

TOXIC FLYER ZINE

KEVIN WOOD AND FROM THE NORTH (MALFUNKSHUN MONUMENT) CD

Wow!! Was totally fool by the record, was looking for something a little lame, guess the name fooled me. But this band is 100% killer. Just great rock n roll with that dark side and kinda swamp rock feel that gives of a dirty feel with a lot of cool needles. But this band feature songs from by Andrew Wood (MOTHER LOVE BONE) the band with members who went on to form PEARL JAM after Andrew's death. (note once saw MOTHER LOVE BONE open up for THE DOG D'AMOUR and was blown away). But this is just dark rock with a lot of pain and some dirty guitars that gives of a MOTHER LOVE BONE, SEAHAGS, HANGMEN, to SOUND GARDEN sort of sound. just cool stuff that need to be heard.
