Film Review: The Bloody Ape (1997)

SYNOPSIS:

A carnival barker foolishly releases his 400 pound gorilla, who then literally goes bananas on a rampage of raw rape and boffo butchery – leaving the low rent population of Long Island either sexually violated, slaughtered – or both!

REVIEW:

[The Bloody Ape](#) was such a fun film. If you haven't seen it you should pick it up. There were many things wrong with it and by no means is it an actual good horror film but it's so laughable. The very first picture on the screen is a pair of titties with the title with carnival [music](#) and it's apparently inspired by a Edgar Allen Poe story? It was badly transferred and was like watching an old VHS tape though. Some death scenes weren't too clear. Lets go over some of these death scenes because they were actually pretty creative at points:

A gross naked woman is taking a shower then the ape attacks her but this scene is the disappointing one. You can see her screaming but you can't hear her and this man in a stupid gorilla suit is barely clawing her then you see blood appear. Her acting and motions are not good enough. He does smash her head into the tile and she dies instantly. It gets even better. This thing is so smart it searches her kitchen for weapons then picks up a knife to kill the next girl. He slits her throat and there was decent blood amount. This whole time no one in the house hears the screams? It keeps showing gross naked woman, including BUSH and you see the ape beating off.

The ape starts to fondle ones titties and eventually rips her nipple off. Pretty graphic. Another cool death scene is where a car mechanic gets his head smashed in by a car tire. I mean it is smashed in and there is blood. The ape then steals a car (yes it can drive) and it hits someone up against another car which was just funny. He takes a cops head completely off with his ape hands and blood is squirting out while the body is still standing and twitching. He takes off a leg of a Jew and that was pretty hilarious. Then he rapes the Rabbi's wife, you see he creams all over her ass which is just gross, then he's ripping out her insides that look like pork chops with BBQ sauce. Watching the ape have sex with this woman was just gross and in bad taste...worse than The Beast in Heat.

The writer's views on racism are pretty dumb. I really think he's racist and I never really get offended by stereotyping. I think they were trying to go for shock value or something. The character of the Rabbi was just horrible acting with an exaggeration of the 'chh' sound that we make when we talk. Then they make remarks about how money makes Jews happy. A cop in the film that sees the ape driving says, "Some crazy nigger jut tried to run me over."

Then they throw the word chinks out there repeatedly. Polish jokes were mixed in as well. Everyone all over town is thinking that the killer is a black man when it's the ape and they

eventually kill the black man. One thing they were right about was how stupid cops can be. There was an annoying fat guy as a detective with a fake mustache and go-tee. He screams during the whole movies and bitches about non sense. He sits back letting the murders happen and swears it's just the black man. He reminded me of Donkey Lips from Salute Your Shorts only his acting was really really bad. All the acting was terrible and some scenes were just flat out ridiculous and gross.

The lead character Lampini was pretty annoying as well. His acting was in bad taste and the fact that he teaches his monkey to kill all those around him was just stupid. He gives al the victims bananas which leads the ape their way and that's how he knows who to kill. Those who have done Lampini wrong are in for a surprise.
