

Gothkill (2008)

Starring Erica Giovanazzo, Flambeaux & Eve Blackwater

Directed by J.J. Connelly

Written by J.J. Connelly

YOU PEOPLE WANT TO SEE
HULLUOHO
HULLUOHO

The concept of the "Horror-comedy" is so... Sometimes a filmmaker will use it like a safe... moments come off unintentionally funny it is... be a joke instead of just copping to the fa... serious hardcore movie it was envisioned to... to be in on the joke and doesn't fall under the

GOTHKILL, written and directed by JJ Conr... and provides us with more Goth kids than... priest Nicholas Dread (Flambeaux) was once... who were being burned as witches. The elde... viewpoint and ended up burning him at the st... of which is Mistress Juliya in a small but r... wronged man of the cloth was given a kin... revenge and fill up with souls? Yep, you gues... known as The Soul Collector.

Enter Annie Caldwell and her friend Kate... rooming together who get invited to an exclusive party at an underground Goth club called The... to the brim with leather, whips, boobs, black make-up and depressing fortunetellers. What di... Baking banana bread? It is in these sequences that GOTHKILL jabs a finger into the side of the... a joke because I can't believe the lifestyle would be this goofy but what do I know? I'm from Min... known as Goth Central. Plus, it's too cold there to wear nipple clamps and black rubber thongs.

Soon Annie and Kate's drinks are spiked and a sideshow of Goth freaks quickly feel them... up. The group leader turns out to be a bit of a poser but still manages to summon up Nick,

who takes over the body of young and virginal Annie. Gee, Spiked drinks, magic shows, funky music. Maybe I could get used to this whole Goth scene. While watching this movie I took away two things: Grown men shouldn't wear shiny black lipstick and GOTHKILL is bloody good fun. A knife shoved through the head of a Goth boy was especially impressive. It also boasts an end sequence of Nick/Annie slaughtering their way through the club. Think BRAVEHEART only with lace-up leather boots; black wigs and spider rings.

NYC underground performance artist Flambeaux was born to play Nick. He chews the scenery with all the gusto of a 300-pound woman on a diet. He really does make the movie what it is, a campy look at evil, Goth life and demonic cults. I see this playing at midnight theaters and taking on ROCKY HORROR PICTURE SHOW-type status with the Goth crowds dressing as their favorite characters and shouting dialogue at the screen. Although maybe I'm just falling back on the "I loved this movie" defense because this particular group of actors look like they could mess a certain blonde horror writer up pretty badly. Who knows? Decide for yourself by going to www.gothkill.com and picking up a copy of GOTHKILL today.

Ben, we are aware you are all man 🤔
 Thanks Karyne!
 P.S. You're right about the hot pink 🤔

Hot goth chicks getting hacked & slashed... I can think of worse ways
 And yes, in spite of recent evidence to the contrary, I AM into girls. 😊

Hmm...no black rubber thong for you?? Somehow I see you in hot pink
 black..always makes a blond look washed out.
 seriously..good review chicky..
