Hard Vision (July / August 2009)

## **GOTH KILL**

DVD Movie

(Wild Eye)

I consider myself a pretty big horror movie fan and I love a good action/bloody horror film as much as the next guy. That being said, this movie was downright awful. I don't mind low budget flicks and actually to me most low budget horror movies are better than the big action flicks. This movie had some god awful acting, it wasn't scary at all, and the plot left a lot to be desired. A man comes back after making a pact with Satan to reign over 100,000 or something souls and he goes and finds his victims in a goth club. The plot is just so off the wall and the movie just had me just waiting for it to end and I have to admit after about an hour or so I had to shut this damn thing off as it was just torture watching it. This gets a big double thumbs down from me. Info: <http://www.wildeyereleasing.com/gothsite.html>
