Rewind: Hit The Right Note

Music Makes The Best Gift

For the stoner rock fan:

Clutch

Full Fathom Five: Audio Field Recordings

Weathermaker Music

These tracks, taken from 4 different live shows recorded on Clutch's 2007/2008 World Tour, catch the band in fine form. It's everything you want to hear from Clutch: loud rocking guitars with screaming vocals, blasting away into a hypnotic sonic sound blast. These recordings also available on DVD with bonus tracks not on the CD. Look for Five Horse Johnson's Eric Oblander as a featured guest!
