

FAUSTTOPHEL

THIRST OF OBLIVION

Music for those who appreciate creativity of Dan Swanö and such bands as Edge Of Sanity, Unanimated and Old Man's Child.

The debut full-length album of Russian Melodic Black Metal band.

It's a tandem of Melodic Death Metal drive, poetic symbolism of the early twentieth century, a grimy melancholy of Black Metal, with elements of ethnic romanticism of Gogol's Ukraine - it is exactly identification of the creativity of FAUSTTOPHEL, bringing together the best traditions of the heavy old school stage of 90th.

Music for those who appreciate creativity of Dan Swanö and such bands as: Edge Of Sanity, Gates of Ishtar, Unanimated and Old Man's Child.
