### No Liars Among The Fallen

"No Liars Among The Fallen" - the third full-length studio album by Russian Melodic Black/Death Metal band FAUSTTOPHEL.

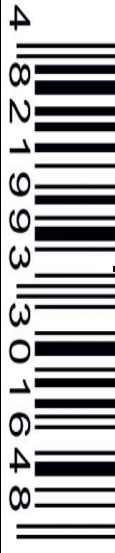

Fausttophel remains true to their original musical handwriting. Recognizable style - social poetry, appeal to world mythology and noir philosophy, melodic musical themes and hard blast-beats.

The album can't be uniquely attributed to any genre, the band appeals to many styles of Metal, traditionally using rich arrangements and mood changes.
