# Led Zeppelin

## The Document Unauthorized

*CD/DVD package featuring rare footage of the band, exclusive interviews with friends/colleagues, group photographs and more!*

**THE INTERVIEW CD:** Over an hour of interviews with the individual band members, recorded during the height of their success in the early and mid-1970s, in which they discuss their music, their influences, their history and each other! This is a rare chance to hear the group talking off the record, during a time in which they rarely gave interviews and never appeared on television.

**THE DOCUMENTARY DVD:** A fascinating 60 minute documentary film which lifts the lid on the career of the band, as it follows their progress from those heady post-hippie days of the late 1960s, to the group's demise, following the tragic death of drummer John Bonham, in 1980. Featuring interviews with the band members and with those close to them, rare footage, news clips, exclusive contributions from colleagues, journalists and the band's biographer, location shoots, seldom seen photographs from private collections and a host of other features.

### BONUS

- 2 x 4-page Illustrated Booklet

Artist	Led Zeppelin
Title	The Document Unauthorized
Selection #	CDDVD22
