"The best unrecorded band in the history of rock'n'roll"

- Jello Biafra

While criminally under-recorded in their time, **The Scremers** were one of the first wave of **LA Punk** bands. This legendary program is now available on DVD featuring remastered sound and video and is recognized as **THE** document of this ground breaking band. Synths, drums, bass and the incredible performance of vocalist **Tomata Du Plenty**; so far ahead of their time it is downright scary. While there might be a million "what ifs" surrounding this band, at least someone had the frame of mind to film them, live in front of an adoring crowd.

Includes 3 ultra-rare never before released videos - live from the Target Studios!

Recorded live in San Francisco by Joe Rees, Target Video, Sept. 2, 1978

Track list: Vertigo, Beat Goes On, Punish or Be Damned, 122 Hours of Fear, Another World, Last 4 Digits.
