BLU-RAY \$24.95  
DVD \$19.95

From the era of giant bugs and atomic testing comes this low budget howler about mutant wasps. When scientists try to understand the effects of radiation on Earth creatures, the result brings them to an area of Africa known as "Green Hell," where wasps have mutated into monsters! Jim Davis, who would someday star in the TV series *Dallas*, plays Dr. Quent Brady, the scientist who starts the whole mess. The film also stars Vladimir Sokoloff (*The Life of Emile Zola*, *Mission to Moscow*) as the skeptical Dr. Lorentz, and Joel Fluellen (*Raisin in the Sun*), as Arobi, who warns Brady to beware of the African location. The locals don't call it "Green Hell" for nothing!
