

FOUR SCIENCE FICTION CLASSICS ARE BACK FOR ONE DEFINITIVE EDITION!

MONSTER MAYHEM COLLECTION

MONSTER KIDS REJOICE!

Frankenstein's Daughter, *Giant from the Unknown*, *The Brain from Planet Arous*, and *Monster from Green Hell* all come together to create one HD Monster Mayhem set! Logic dictates that these shoe-stringers would be the least admired of the monster movie world, but in many cases, bargain basement titles like these are just so much fun. This collection celebrates four all-expenses-spared science fiction sagas and the clever shortcuts taken by their cash-strapped creators.

INCLUDES BONUS FEATURES:

- *Frankenstein's Monster* feature film, with a full-length commentary by Tom Weaver
- *Giant from the Unknown* feature film, with a full-length commentary by Tom Weaver
- Full-length archival commentary track for *Giant of the Unknown* with Gary Crutcher
