

JD Malone & The Experts Avalon

JD Malone & The Experts

Avalon (CD+DVD)

Equal parts Petty, Mellencamp & Steve Earle.

From the mountains of Vermont comes JD Malone with his New York & Philly partners, the appropriately named Experts. Merging a sound that pulls from equal parts Tom Petty & Mellencamp adding a touch of a young Steve Earle and even Creedence Clearwater Revival, JD Malone & The Experts hit the ground running on their first world-wide release, "Avalon." From track one you'll know exactly that you're about to enter a musical landscape seldom tread by others. The visionary approach to lap steel, mandolins and dobro guitars by Tom Hampton, the pounding precision drumming of Tom Geddes, the inspired electric guitars by Avery Coffee, the intricate & intelligent bass of Jim Miades only serve to prove perfect accompaniment for the incredible vocals and songwriting of JD Malone.

"On their first album JD Malone & The Experts come roaring out of the gate with the snarl and grit of a young Steve Earle. Comparisons abound to Petty, Mellencamp and even Creedence but the truth is that JD has an identity all his own. Get ready for a brand new contender. Mark my words!"
