

LIBERA **if**

3 time Classical BRIT nominees and You Tube sensations have recorded their brand new studio album titled "If". There are 15 songs including 5 brand new compositions.

After the success of the last album and the restrictions of 2020/21 plus the forced cancellations of all concerts, the boys have responded to the challenges with their new album. They are very happy to be back making music again and hope the listeners will enjoy their performances, as they sing the new music and arrangements.

When I heard them sing  
- it actually took me  
to tears.
