## ADHD MINDFUL MUSIC with Subliminal Affirmations FOR ENHANCED FOCUS

**Proven effective for: Parents of a child with ADHD  
 Adult ADHD • Teachers • Counselors  
 Anyone looking for enhanced focus**

Steven Halpern is the acknowledged leader in composing music that has helped individuals with ADHD for over 40 years.

The uniquely relaxing sound of Halpern's iconic Fender Rhodes electric piano is a key ingredient that makes his music the ideal soundtrack that supports individuals of all ages in living more productive and successful lives.

For the first time ever, ADHD-specific affirmations are mixed inaudibly into the music. Combined, they **enhance focus, concentration, improved emotional control and executive function.**

The music also effectively masks distracting background noises for students and adults on the job.
