SOUND HEALING 432 Hz

**The essential, career-defining collection (1975-2018)
...sure to become a key addition to
retail New Age sections!**

Grammy® award nominated recording artist and pioneering sound healer Steven Halpern has a well-deserved reputation for his prolific discography that has earned him the respect and appreciation of audiences around the world.

SOUND HEALING 432 Hz is a timeless anthology that brings together for the first time key selections from 1975 through 2018.

Highlights include stellar collaborations with Grammy® winners David Darling (cello), Paul McCandless (oboe), Michael Manring (fretless bass), plus tracks with bamboo flute, harp and Halpern's legendary Fender Rhodes electric piano.

Each track is a unique audio jewel tuned to a harmonic of the Earth's Schumann resonance (A=432 Hz, vs. standard 440Hz) which amplifies the positive benefits for the listener.

Millions rely on his recordings to help them relieve stress, support optimal well-being, and solve chronic sleep deficiencies. A must-have for new and long-time fans, **SOUND HEALING 432 Hz** should become a foundation of every New Age music retail section.

The 432 Hz Advantage

According to researchers, music tuned slightly lower (A=432 Hz) than standard concert pitch (A=440 Hz) enhances its healing potential. There's a growing demographic niche that seeks music tuned to 432 Hz, and this digital album will surely appeal to them.
