Want to feel good this summer? Bring a beach blanket and pitcher of margaritas to the nearest oceanfront with a loved one. Want to feel better? Bring along this copy of the latest installment of **A Long Hot Summer** mixed this time by the one & only **DJ Meme**. Ex-Editor in Chief of **M8 Mag UK**, **Kevin McFarlane** said it most relevantly, "Think summertime partying, Think **DJ Meme**." He couldn't be more on point. Third in line to compile this new series, **Meme** follows 2 other renowned producer/djs, **Kiko Navarro**, and **Chris Brann** of **Ananda Project**, **Wamdue**, and **P'Taah**. Its really an honor to have **Meme** mix this current summer comp, as an established multi-gold, platinum, and diamond-selling artist, he is the latest to join the **Def Mix** family roster, along with **David Morales**, **Frankie Knuckles**, **Satoshi Tomiie**, and **Hector Romero**. **Meme** has also been credited for remixing **Shakira**, **Pet Shop Boys**, **New Order**, **Ricky Martin**, **Dido**, **Mariah Carey** and **Toni Braxton**, among others. Hailing from tropical Brazil, it's apparent that his sweet, feel-good, melodic, and pure rhythmic sensibility had been instilled in him since birth. From the very first natural beat of his brand new remix of **Namy** ft.

**Stephanie Cooke**'s "I'm Not Ashamed (I Need You)" blending seamlessly into **Ananda Project** feat. **Heather Johnson & Terrance Downs** "Kiss Kiss Kiss" (**Eric Kupper** Mix), into **Tiger Stripes** feat. **Hanna Hais** "Consecration" (**Tiger Stripes** Dub), and then on to include songs like **STUDIO APARTMENT** feat. **Blaze**'s "The Rising Sun" (**Muthafunkaz** Sun Rising), **Jay-J** ft. **Big Brooklyn Red** "Decide" (**DJ Meme** Drama mix), **Kerri Chandler**'s "So Let the Wind Come," **Stephanie Cooke** "Rain" (Let it all come) (**Dennis Ferrer** Rainforest Mix), **Ferrer**'s "Destination" and others, he brings us to the brink of glorious dance floor enlightenment. He serves up deep, pumping, house and a few Latin house grooves that, not only showcase his superb mixing skills but exceptional programming of dubs and remixes that instantly tap into your feel good nerve center. We'll even go so far as to say **Meme**'s continuous mix will alter your brain chemistry and it will take forever before they find the right formula. All they really need to do is ask him his secret, but we'll let those in the lab coats figure it out for themselves. Take a ride on **Meme**'s musical mindset. It'll be worth the trip.
