Deep Into Nite Grooves

Mixed & Selected by DJ Spinna

As **King Street's** sister label **Nite Grooves** gets ready to celebrate **20 Years in 2014**, we wanted to tap into the very essence of its diverse and deep sounds with a respectable comp. For this we needed the compiling candidate whose indisputable musical history spanned eras, styles and functions. After all, if you only know House Music, you won't make good House Music. Enter the legendary **DJ Spinna**. With roots in Funk, Hip Hop, R&B, Jazz, Soul, he's remixed for **Mary J. Blige**, **Stevie Wonder**, **Michael Jackson**, **De La Soul** and more. He's collaborated with **Eminem**, worked with **Pharoah Monch** and has had two hip hop groups **Jigmastas** and **Polyrhythm Addicts**. His remix of **Shaun Escoffery's** "Days Like This" is arguably one of the greatest remixes in Soulful House Music history and is still being played today. For just under 2 decades, **Nite Grooves** has been on the forefront of Deep House, contributing to the global movement it is today. Its been known for releasing the more underground profound cuts, like those found on this album, that have at one point or another, made their way onto nearly every dancefloor on the planet. On **Deep Into Nite Grooves: Mixed & Selected by DJ Spinna** we get treated to an almost 80-minute head-knocking journey of some of the grooviest tunes in the catalog. He kicks off the **22-song** comp with the truly vibey **Fred Everything & Olivier Desmet** Remix of **Dennis Ferrer** feat. **Bola Belo's** "Dem People Go!" and leads us into deep tune after deep tune like **Bassmental's** "Names Like?," **Soundealers'** "I Know You Want Me" (**Langenberg** Night Mix), **Nil By Mouth's** "Lunate," **Sunshine Jones'** "Dirty Love" (**Aki Bergen & Daniel Jaze** Soulvision Remix) and others. He also includes **six brand new unreleased tracks** like **Gussy//Delgado's** "You Say Music," **9west's** "Simple Things," **Alex Font's** "The Real Thing," **Roland Nights'** "To The Point," **Rancido's** "Sphere" (Deep Journey Main Mix), and more. The vibe gets house-ier and the pump gets even deeper with **Cevin Fisher's** "House Music" (**Supernova** Remix), **Technique's** "This Old House" (**Oliver \$** Dub), **Conga Squad's** "Blow Up" (**James Dexter** Remix), **Doomwork's** "Red Lips," and the synthy "Electriciss" by **Eric Kupper** presents **K-Scope**. The journey then takes a more alterna-dance direction with **Spinna's** own remix of **P'taah's** "Sun's Departure," which is followed by another **P'taah** feat. **Tiombe Lockhart** track and his own re-edit of **Kenny Dope's** Remix of "Dance Until We Die." Then we round off nicely with **Kerri Chandler's** Original Concept Mix of **Ananda Project** feat. **Mia Tuttavilla** / "Awareness," **Eric Kupper** presents **K-Scope's** "Dreamstate" and finally **Luigi Rocca's** Remix of **G.I.L.V.'s** "Perspective." All these bassy, deep, thump tracks and silky smooth selections are as sensuous as they are cool and vibey. **DJ Spinna** puts them together seamlessly, creating a constant groovy ebb & flow, making this a great soundtrack to any deep house evening.
