

ARTROSIS

In the Flower's Shade

This is the English version of the third Artrosis album but with extra bonuses: picture gallery, discography and a video to "Among the Flowers and Shadows"! Artrosis, considered to be the best gothic band in Poland, presents 11 marvelous compositions making up one lyrical & musical whole. Medeah's vocal skills seem to improve with every new album and here her work exceeds anything she has done before. The English language makes her voice more "fluent" and soft. The multiple guitar solos make the record slightly varied in style and climate, though never too off-the-course of Artrosis' characteristic and unique atmosphere. Mysticism, sorrow, despair and almost unbearable beauty are all emotions evoked here. One album review states, "Listening to the album, I felt like I was wandering in a flowery valley in one moment, just to submerge into the shadows cast by icy castle's walls in another."
