

TENEBROSUS

THE FALL OF WORTHLESS MORALS

This is the ultra fast and brutal first full-length by Tenebrosus. The band is already known on the underground black metal scene from 4-piece promo material (2001) and its re-edition on split-MC with Angmar. Every second on this release is filled with aggression, wrath and passion! The album was recorded in Olsztyn Selani Studio (**Vader**, Behemoth, **Lux Occulta**, **Decapitated**, **Dominium**) so excellent production and sound result. **It is extreme, uncompromising black metal in the style of Marduk.**
