

MOONLIGHT

DOWNWORDS

This is the long awaited 10th full-length release by Moonlight! It's the band in their new artistic incarnation featuring a mature and modern sound with sophisticated arrangements and exotic instruments! Maja's characteristic voice leads the listener through unique soundscapes. No one in Poland has recorded anything like this before. The music is full of colors and lingers on the edge of chaos and depression. Focus on the music, from the first note to the very last one… **Digipack edition includes two bonus tracks "Downwords" and "Pill".**
