The Body Parts Party (Digipak)

Prog rock, metal, jazz as well as ambient and alternative rock combine for a potent mix.

"The Body Parts Party" is a concept album which describes people's feelings and emotions - the negative as well as the positive ones. It's also about thoughts and reflections on a human's ordinary day-to-day existence. All this is symbolized and desribed by means of different body parts and organs. As for music, Osada Vida keep developing the style which could already be found on the previous album „Three Seats Behind A Triangle".
