

# FROM THE CREATOR OF MOBILE SUIT GUNDAM ZZ

It's the Apocalypse. The drastic change in environment causes every male on the face of earth to die out by 2012. Most of the remaining women perish after fighting in a world war over their territories. The mere 20,000 survivors huddle together in the Shinjuku area which has become an ocean of trees.

Within this small, all-female world, humankind divides into two groups:

One which accepts its fate and chooses to give their lives to pleasure.

While the others strive to save the future through the power of science. It's the beginning of an intense battle between these two forces over 'ICE' said to be the last hope for mankind.
