LA MUSIQUE NUMÉRIQUE (French for Digital Music) is the second full-length record from Los Angeles / London electro soul duo **AM & Shawn Lee**. Drawing heavily on late **70's French library**, **80's Italo Disco** and **Sleng Teng dancehall riddims**, *La Musique Numérique* pays homage to the beginnings of the digital realm often employing recording equipment from the era (Simmons drums, period drum machines and first generation digital effects). Themes of the album address new love (Good Blood), addiction (Automatic) and worldwide economic bitterness (Two Times, Suffer Like Me).

New Orleans-bred, L.A.-based tunesmith **AM** has won widespread acclaim by merging pop, soul, folk, R&B and psychedelia into highly personalized songcraft. In addition to releasing several albums on various labels, he spent practically all of last year out on the road touring with a diverse range of artists including AIR, Charlotte Gainsbourg, Josh Rouse and legendary Brazilian tropicalia icon Caetano Veloso. His music has been heard on TV shows such as Greys Anatomy, Criminal Minds, The Mindy Project, Teen Mom, Big Love, Royal Pains, Castle, and Friday Night Lights.

Kansas-born, London-based composer/producer/instrumentalist **Shawn Lee** has established a reputation as a mischievous sonic innovator and one of the most sampled artists in Hip Hop, releasing more than twenty genre-spanning albums of his original material, usually as Shawn Lee's Ping Pong Orchestra. He has recorded projects with artists such as Clutchy Hopkins, Saint Etienne, Arthur Verocai, Greyboy, Coldcut, Tony Joe White, Darondo, Money Mark and Tommy Guerrero and opened for bands such as Phoenix, Sigur Ros, Kings Of Convenience, and Bonnie Prince Billy. His music has been heard on television shows such as Entourage, CSI, Lost, and Nip/Tuck, and Desperate Housewives. He is an award winning video game music composer and winner of the award for best original music for the video game "Bully" by Gamespot and nominated for best original score from Spike VGA (video game awards).
