Featuring **DJ Collage** on the mike & **Lynn Farmer** on drums & percussion.

Very cool visuals with multiple camera angles and sound coming out of different speakers at different times.
A truly remarkable audio/visual experience!

All kinds of ear candy and bass as big as the Grand Canyon. If anyone is looking for a disc to showcase music in 5.1 - this is it!

"Without Meat Beat Manifesto, there'd be no Chemical Brothers..." - Select Magazine
