## UNDER REVIEW 1995-2000 THE MIDDLE YEARS

Rightly regarded as the founding fathers of pop-punk, Green Day are also lauded nowadays for their newfound political leanings. Between 1995 and 2000, the band made three of their most catchy, melodic and finely crafted albums. On this DVD, it is revealed **how with *Insomniac*, *Nimrod* and *Warning*, the Californian three-piece honed their songwriting and musicianship.**

This DVD features live and studio performances by Green Day, rare interviews, and a host of other features, culminating in the best documentary on this period yet to emerge, with comment, criticism and insight from rock critics, journalists, label affiliates, colleagues, friends, and scenesters.

“I’m loving this Under Review series.  
They are very, very cool...”

— Bob Blackburn, *WESTWOOD ONE*
