SNAKES & MUSIC

isabelle

Snakes and Music is the next incarnation of **Initial Records** indie darlings **the Jazz June**. After 3 formal releases and incessant touring with bands like **Built to Spill** and the **Get Up Kids**, Initial Records and Mordam Distribution helped the Jazz June carve a fiercely loyal fan base that has since passed into the hands of the younger MTV2 Generation. Snakes and Music fills the gap between modern alternative bands like **The Shins** and **Lucero** to more classic favorites like **SuperChunk** and **Built to Spill**.

“Isabelle” is a mature, stylish record with a great deal of cross genre appeal. The record showcases the band’s skill and diversity in genres like folk and indie rock. With a college radio promotion in place and tour support scheduled, a goal to reach as many new listeners as possible has been set.
